### **Material Safety Data Sheet**

Issuing Date 23-Nov-2011 Revision Date Revision Number 0

#### 1. PRODUCT AND COMPANY IDENTIFICATION

Product Name Stainless Steel and Alloys of Stainless Steel

**Distributor** 

ThyssenKrupp Materials NA, Inc. 22355 W. Eleven Mile Road Southfield, Michigan 48034

TEL: 248-233-5681

**Emergency Telephone** 

Number

248-233-5681

#### 2. HAZARDS IDENTIFICATION

#### WARNING!

#### **Emergency Overview**

Non-combustible as supplied.

Small chips, fines and dust from processing may be readily ignitable.

Hazardous fumes can also occur in post-processing operations

Product dust may be irritating to eyes, skin and respiratory system.

Dust may form explosive mixture in air

Possibly cancer hazard by inhalation

Appearance Metallic, Solid Physical State Solid. Odor Odorless

**OSHA Regulatory Status** 

**General Hazard Statement:** Solid metallic products are generally classified as "articles" and do not constitute hazardous materials in solid form under the definitions of the OSHA Hazard Communication Standard (29 CFR 1910.1200). Any articles manufactured from these solid products would be generally classified as non-hazardous. However, some hazardous elements contained in these products can be emitted under certain processing conditions such as but not limited to: burning, melting, cutting, sawing, brazing, grinding, machining, milling, and welding.

Potential Health Effects

**Principle Routes of Exposure** Eye contact. Skin contact. Inhalation.

**Acute Toxicity** 

Eyes Dust contact with the eyes can lead to mechanical irritation.

Skin Contact with dust can cause mechanical irritation or drying of the skin. Contact with oils from

processing may cause irritation. Prolonged skin contact may defat the skin and produce dermatitis. Repeated or prolonged skin contact may cause allergic reactions with susceptible

persons.

**Inhalation** May be harmful if inhaled. Inhalation of dust in high concentration may cause irritation of

respiratory system. Inhalation of fumes may cause metal-fume fever.

Ingestion May be harmful if swallowed. May cause additional affects as listed under "Inhalation".

Chronic Effects Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated

exposure. Prolonged exposure may cause chronic effects. Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization of susceptible persons. May cause control persons until persons with pauses beadeane dizziness werniting and

central nervous system depression with nausea, headache, dizziness, vomiting, and incoordination. May cause adverse effects on the bone marrow and blood-forming system. May

cause adverse liver effects.

Elevated temperature processing such as welding and plasma arc cutting may release hazardous fumes. Overexposure to metal fumes may cause pulmonary edema (fluid in the lungs) and methemaglobinemia. May also cause pulmonary fibrosis and lung cancer.

Aggravated Medical Conditions Allergies. Skin disorders. Respiratory disorders. Central nervous system. Pre-existing eye

disorders. Blood disorders. Kidney disorders. Liver disorders. Nasal cavities. Lungs.

**Interactions with Other Chemicals** Irritants. Sensitizers. Epoxies. Use of alcoholic beverages may enhance toxic effects.

**Environmental Hazard** See Section 12 for additional Ecological Information.

#### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Each alloy may contain one or more of the following ingredients. Consult the Technical Data Sheet for the composition of specific alloys.

| Chemical Name  | CAS-No    | Weight %  |
|----------------|-----------|-----------|
| Iron           | 7439-89-6 | 66.0-88.0 |
| Chromium       | 7440-47-3 | 0.01-30.0 |
| Nickel         | 7440-02-0 | 0.01-27.0 |
| Manganese      | 7439-96-5 | 0.01-6.0  |
| Molybdenum     | 7439-98-7 | 0.01-6.0  |
| Titanium       | 7440-32-6 | 0.01-6.0  |
| Copper         | 7440-50-8 | 0.01-6.0  |
| Sulfur dioxide | 7446-09-5 | 0.01`-2.0 |
| Phosphorus     | 7723-14-0 | 0.01-2.0  |
| Cobalt         | 7440-48-4 | 0.01-2.0  |
| Carbon         | 7440-44-0 | 0.01-2.0  |
| Silicon        | 7440-21-3 | 0.01-2.0  |
| Tungsten       | 7440-33-7 | 0.00-1.8  |
| Niobium        | 7440-03-1 | 0.00-1.00 |
| Aluminum       | 7429-90-5 | 0.01-0.5  |
| Tantalum       | 7440-25-7 | 0.15-0.45 |
| Selenium       | 7782-49-2 | 0.03-0.35 |

Stainless Steel Alloys may be comprised of all or variations of the alloys shown here.

#### 4. FIRST AID MEASURES

Eye Contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and

continue flushing for at least 15 minutes. Keep eye wide open while rinsing. Consult a

physician.

**Skin Contact**Wash skin with soap and water. In the case of skin irritation or allergic reactions see a

physician.

**Inhalation** Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration.

Consult a physician.

Ingestion Do NOT induce vomiting. Call a physician or Poison Control Center immediately. Drink plenty

of water. Never give anything by mouth to an unconscious person.

Notes to Physician May cause sensitization of susceptible persons. Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Flammable Properties This product does not present fire or explosion hazards as shipped. Small chips, fines, and

dust from processing may be readily ignitable.

Flash Point Not applicable.

Suitable Extinguishing Media Class D extinguishing agents on fines, dust or molten metal. Use coarse water spray on chips

and fines.

Unsuitable Extinguishing Media DO NOT use halogenated extinguishing agents on small chips or fines. DO NOT use water for

fires invoving molten metal. These fire extinguishing agents will react with burning material.

**Explosion Data** 

Sensitivity to Mechanical Impact Sensitivity to Static Discharge None None

Specific Hazards Arising from the

Chemical

Thermal decomposition can lead to release of irritating gases and vapors. In the event of fire and/or explosion do not breathe fumes. May cause sensitization by inhalation and skin contact.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH

(approved or equivalent) and full protective gear.

NFPA Health Hazard 2 Flammability 0 Instability 0 Physical and Chemical

Hazards -

HMIS Health Hazard 2\* Flammability 0 Physical Hazard 0 Personal Protection X

#### 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions

Use personal protective equipment. Keep people away from and upwind of spill/leak.

Environmental Precautions Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do

not flush into surface water or sanitary sewer system.

**Methods for Containment** Prevent further leakage or spillage if safe to do so.

Methods for Cleaning Up Avoid dust formation. Collect scrap for recycling.

If product is molten, contain the flow using dry sand or salt flux as a dam. All tools and containers which come in contact with molten metal must be preheated or specially coated and

rust free. Allow the spill to cool before remelting as scrap.

#### 7. HANDLING AND STORAGE

**Handling** Avoid contact with skin, eyes and clothing. Wear personal protective equipment. Avoid dust

formation. Keep material dry. Avoid contact with sharp edges or heated material. Hot and cold

aluminum are not visually different. Hot aluminum does not always glow red.

Storage Keep container tightly closed in a dry and well-ventilated place.

<sup>\*</sup>Indicates a chronic health hazard.

#### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

#### **Exposure Guidelines**

ACGIH TLV: American Conference of Governmental Industrial Hygienists - Threshold Limit Value. OSHA PEL: Occupational Safety and Health Administration - Permissible Exposure Limits. NIOSH IDLH: Immediately Dangerous to Life or Health.

Other Exposure Guidelines Vacated limits revoked by the Court of Appeals decision in AFL-CIO v. OSHA, 965 F.2d 962

(11th Cir., 1992). Hexavalent chrome may be formed during welding.

Engineering Measures Showers

Eyewash stations Ventilation systems

Personal Protective Equipment

Eye/Face Protection Skin and Body Protection Respiratory Protection Safety glasses with side-shields. Impervious clothing. Impervious gloves.

If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with autrent level regulations.

with current local regulations.

**Hygiene Measures** Do not breathe vapors/dust. When using, do not eat, drink or smoke. Provide regular cleaning

of equipment, work area and clothing. Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product. Keep away from food, drink and

animal feeding stuffs.

......

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

**Appearance** Metallic, Solid. Odor Odorless. No information available Solid **Odor Threshold Physical State** 

No information available.

**Flash Point** Not applicable.

No information available. **Decomposition Temperature Melting Point/Range** 

1300°C / 2400°F

Flammability Limits in Air No information available.

**Specific Gravity** 7.9

**Evaporation Rate Vapor Density** 

No information available

No data available.

**Autoignition Temperature** 

**Boiling Point/Boiling Range** 

No information available.

No information available

Solubility No information available. **Vapor Pressure** No data available.

#### 10. STABILITY AND REACTIVITY

**Stability** Stable under recommended storage conditions.

**Incompatible Products** Acids. Alkalies. Metal oxides. Iron powder and water: may cause an explosive reaction forming

hydrogen gas when heated above 1470F (800C). Moisture.

**Conditions to Avoid** Dust formation. Heat, flames and sparks.

Hazardous Decomposition Products Iron oxides. Metal fume. Chromium oxides.

**Hazardous Polymerization** Hazardous polymerization does not occur.

#### 11. TOXICOLOGICAL INFORMATION

#### **Acute Toxicity**

#### **Product Information**

Inhalation

May cause irritation of respiratory tract. Inhalation of fumes may cause metal fume fever, which is characterized by flu-like symptoms with metallic taste, fever, chills, cough, weakness, chest pain, muscle pain and increased white blood cell count.

**Eye Contact** 

Dust contact with the eyes can lead to mechanical irritation.

| Chemical Name  | LD50 Oral            | LD50 Dermal       | LC50 Inhalation                  |

#### **Chronic Toxicity**

**Chronic Toxicity** 

Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated exposure. Prolonged exposure may cause chronic effects. Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization of susceptible persons. May cause central nervous system depression with nausea, headache, dizziness, vomiting, and incoordination. May cause adverse effects on the bone marrow and blood-forming system. May cause adverse liver effects.

Elevated temperature processing such as welding and plasma arc cutting may release hazardous fumes. Overexposure to metal fumes may cause pulmonary edema (fluid in the lungs) and methemaglobinemia. May also cause pulmonary fibrosis and lung cancer.

Carcinogenicity

This product contains one or more substances which are classified by IARC as carcinogenic to humans (Group I), probably carcinogenic to humans (Group 2A) or possibly carcinogenic to humans (Group 2B).

| Chemical Name  | ACGIH | IARC     | NTP                    | OSHA |
|----------------|-------|----------|------------------------|------|
| Chromium       |       | Group 3  |                        |      |
| Nickel         |       | Group 2B | Reasonably Anticipated | X    |

#### 13. DISPOSAL CONSIDERATIONS

Waste Disposal Methods Dispose of in accordance with local regulations.

Contaminated Packaging Do not re-use empty containers.

US EPA Waste Number D007 D010

| Chemical Name        | RCRA                        | RCRA - Basis for Listing                           | RCRA - D Series Wastes    | RCRA - U Series Wastes |
|----------------------|-----------------------------|--|---------------------------|------------------------|
| Chromium - 7440-47-3 |                             | Included in waste streams: F032, F034, F035, F037, | 5.0 mg/L regulatory level |                        |
|                      |                             | F038, F039   |                           |                        |

#### SARA 311/312 Hazard Categories

Acute Health Hazard Yes
Chronic Health Hazard Yes
Fire Hazard No
Sudden Release of Pressure Hazard No
Reactive Hazard No

#### **Clean Water Act**

This product contains the following substances which are regulated pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42):

| Chemical Name | CWA - Reportable<br>Quantities | CWA - Toxic Pollutants | CWA - Priority Pollutants | CWA - Hazardous<br>Substances |
|---------------|--------------------------------|------------------------|---------------------------|-------------------------------|
| Nickel        |                                | X                      | X                         |                               |
| Copper        |                                | X                      | X                         |                               |
| Phosphorus    | 1 lb                           |                        |                           | X                             |
| Selenium      |                                | X                      | X                         |                               |

#### **CERCLA**

This material, as supplied, contains one or more substances regulated as a hazardous substance under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302):

| Chemical Name  | Hazardous Substances RQs | Extremely Hazardous Substances RQs | RQ                   |
|----------------|--------------------------|------------------------------------|----------------------|
| Nickel         | 100 lb                   |                                    | RQ 100 lb final RQ   |
|                |                          |                                    | RQ 45.4 kg final RQ  |
| Chromium       |                          |                                    | RQ 5000 lb final RQ  |
|                |                          |                                    | RQ 2270 kg final RQ  |
| Copper         | 5000 lb                  |                                    | RQ 5000 lb final RQ  |
|                |                          |                                    | RQ 2270 kg final RQ  |
| Sulfur dioxide |                          | 500 lb                             |                      |
| Phosphorus     | 1 lb                     | 1 lb                               | RQ 1 lb final RQ     |
|                |                          |                                    | RQ 0.454 kg final RQ |
| Selenium       | 100 lb                   |                                    | RQ 100 lb final RQ   |
|                |                          |                                    | RQ 45.4 kg final RQ  |

#### **U.S. State Regulations**

#### **California Proposition 65**

This product contains the following Proposition 65 chemicals:

| Chemical Name | CAS-No    | California Prop. 65 |
|---------------|-----------|---------------------|
| Nickel        | 7440-02-0 | Carcinogen          |
| Cobalt        | 7440-48-4 | Carcinogen          |

#### 2. HAZARDS IDENTIFICATION

#### WARNING!

#### **Emergency Overview**

Non-combustible as supplied. Small chips, fines and dust from processing may be readily ignitable. Hazardous fumes can also occur in post-processing operations Product dust may be irritating to eyes, skin and respiratory system. Dust may form explosive mixture in air Possibly cancer hazard by inhalation

Appearance Silver or yellow to red

Physical State Solid.

Odor Odorless

**OSHA Regulatory Status** 

General Hazard Statement: Solid metallic products are generally classified as "articles" and do not constitute hazardous materials in solid form under the definitions of the OSHA Hazard Communication Standard (29 CFR 1910.1200). Any articles manufactured from these solid products would be generally classified as non-hazardous. However, some hazardous elements contained in these products can be emitted under certain processing conditions such as but not limited to: burning, melting, cutting, sawing, brazing, grinding, machining, milling, and welding.

Potential Health Effects

Principle Routes of Exposure

Eye contact. Skin contact. Inhalation.

**Acute Toxicity** 

Eyes Skin

Dust contact with the eyes can lead to mechanical irritation.

Contact with dust can cause mechanical irritation or drying of the skin. Contact with oils from processing may cause irritation. Prolonged skin contact may defat the skin and produce dermatitis. Repeated or prolonged skin contact may cause allergic reactions with susceptible

May be harmful if inhaled. Inhalation of dust in high concentration may cause irritation of Inhalation

respiratory system. Inhalation of fumes may cause metal-fume fever.

May be harmful if swallowed. May cause additional affects as listed under "Inhalation". Ingestion

#### **Chronic Effects**

Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated exposure. Prolonged exposure may cause chronic effects. Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization of susceptible persons. May cause central nervous system depression with nausea, headache, dizziness, vomiting, and incoordination. May cause adverse effects on the bone marrow and blood-forming system. May cause adverse liver effects.

Elevated temperature processing such as welding and plasma arc cutting may release hazardous fumes. Inhalation of beryllium dust or fume may cause chronic beryllium disease (CBD) and is a cancer hazard. Overexposure to metal fumes may cause pulmonary edema (fluid in the lungs) and methemaglobinemia. May also cause pulmonary fibrosis and lung cancer. Lead compounds may be absorbed by ingestion, by inhalation and through the skin. Lead may damage kidney function, the blood forming system and the reproductive system. Inorganic lead compounds can cause developmental damage.

**Aggravated Medical Conditions** 

Allergies. Skin disorders. Respiratory disorders. Central nervous system. Pre-existing eye disorders. Blood disorders. Kidney disorders. Liver disorders. Nasal cavities. Lungs.

Interactions with Other Chemicals

Irritants. Sensitizers. Epoxies. Use of alcoholic beverages may enhance toxic effects.

**Environmental Hazard** 

Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment. See Section 12 for additional Ecological Information.

#### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Each alloy may contain one or more of the following ingredients. Consult the Technical Data Sheet for the composition of specific alloys.

| Chemical Name                 | CAS-No    | Weight %    |
|-------------------------------|-----------|-------------|
| Copper                        | 7440-50-8 | 45.00-99.00 |
| Zinc oxide                    | 1314-13-2 | 0.00-40.0   |
| Nickel                        | 7440-02-0 | 0.00-33.0   |
| Lead                          | 7439-92-1 | 0.00-16.0   |
| Aluminum                      | 7429-90-5 | 0.00-13.50  |
| Tin                           | 7440-31-5 | 0.00-13.0   |
| Iron oxide                    | 1309-37-1 | 0.00-5.50   |
| Manganese                     | 7439-96-5 | 0.00-5.0    |
| Silicon                       | 7440-21-3 | 0.01-0.5    |
| Thallium                      | 7440-28-0 | 0.00-3.4    |
| Cobalt                        | 7440-48-4 | 0.00-2.70   |
| Beryllium                     | 7440-41-7 | 0.00-2.00   |
| Cadmium and compounds (as Cd) | 7440-43-9 | 0.00-1.00   |
| Arsenic                       | 7440-38-2 | 0.00-0.50   |
| Sulfur dioxide                | 7446-09-5 | 0.00-0.30   |
| Zirconium                     | 7440-67-7 | 0.00-0.25   |

Copper and Copper Alloys may be comprised of all or variations of the alloys shown here.

4. FIRST AID MEASURES

Eye Contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and

continue flushing for at least 15 minutes. Keep eye wide open while rinsing. Consult a

physician.

Skin Contact Wash skin with soap and water. In the case of skin irritation or allergic reactions see a

physician.

**Inhalation** Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration.

Consult a physician.

Ingestion Do NOT induce vomiting. Call a physician or Poison Control Center immediately. Drink plenty

of water. Never give anything by mouth to an unconscious person.

Notes to Physician May cause sensitization of susceptible persons. Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Flammable Properties This product does not present fire or explosion hazards as shipped. Small chips, fines, and

dust from processing may be readily ignitable.

Flash Point Not applicable.

Suitable Extinguishing Media Class D extinguishing agents on fines, dust or molten metal. Use coarse water spray on chips

and fines.

Unsuitable Extinguishing Media DO NOT use halogenated extinguishing agents on small chips or fines. DO NOT use water for

fires invoving molten metal. These fire extinguishing agents will react with burning material.

**Explosion Data** 

Sensitivity to Mechanical Impact Sensitivity to Static Discharge None None

Specific Hazards Arising from the

Chemical

Thermal decomposition can lead to release of irritating gases and vapors. In the event of fire and/or explosion do not breathe fumes. May cause sensitization by inhalation and skin contact.

Protective Equipment and Precautions for Firefighters As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH

(approved or equivalent) and full protective gear.

#### 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions Use personal protective equipment. Keep people away from and upwind of spill/leak.

Environmental Precautions Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do

not flush into surface water or sanitary sewer system.

Methods for Containment Prevent further leakage or spillage if safe to do so.

Methods for Cleaning Up Avoid dust formation. Collect scrap for recycling.

If product is molten, contain the flow using dry sand or salt flux as a dam. All tools and containers which come in contact with molten metal must be preheated or specially coated and

rust free. Allow the spill to cool before remelting as scrap.

<sup>\*</sup>Indicates a chronic health hazard.

#### 7. HANDLING AND STORAGE

Handling

Avoid contact with skin, eyes and clothing. Wear personal protective equipment. Avoid dust formation. Keep material dry. Avoid contact with sharp edges or heated material. Hot and cold

aluminum are not visually different. Hot aluminum does not always glow red.

Storage

Keep container tightly closed in a dry and well-ventilated place.

#### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

ACGIH TLV: American Conference of Governmental Industrial Hygienists - Threshold Limit Value. OSHA PEL: Occupational Safety and Health Administration - Permissible Exposure Limits. NIOSH IDLH: Immediately Dangerous to Life or Health.

Other Exposure Guidelines Vacated limits revoked by the Court of Appeals decision in AFL-CIO v. OSHA, 965 F.2d 962

(11th Cir., 1992). Hexavalent chrome may be formed during welding.

Engineering Measures Showers

Eyewash stations Ventilation systems

Personal Protective Equipment

Eye/Face Protection Skin and Body Protection Respiratory Protection Safety glasses with side-shields.

Impervious clothing. Impervious gloves.

If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

Hygiene Measures

Do not breathe vapors/dust. When using, do not eat, drink or smoke. Provide regular cleaning of equipment, work area and clothing. Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product. Keep away from food, drink and animal feeding stuffs.

Conditions to Avoid Dust formation. Heat, flames and sparks.

Hazardous Decomposition Products Metal fume. Copper compounds. Lead oxides. Lead and chromium compounds.

Hazardous Polymerization Hazardous polymerization does not occur.

#### 11. TOXICOLOGICAL INFORMATION

#### **Acute Toxicity**

#### **Product Information**

Inhalation

May cause irritation of respiratory tract. Inhalation of fumes may cause metal fume fever, which is characterized by flu-like symptoms with metallic taste, fever, chills, cough, weakness, chest pain, muscle pain and increased white blood cell count.

**Eye Contact** 

Dust contact with the eyes can lead to mechanical irritation.

#### **Chronic Toxicity**

#### **Chronic Toxicity**

Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated exposure. Prolonged exposure may cause chronic effects. Repeated or prolonged skin contact may cause skin irritation and/or dermatitis and sensitization of susceptible persons. May cause central nervous system depression with nausea, headache, dizziness, vomiting, and incoordination. May cause adverse effects on the bone marrow and blood-forming system. May cause adverse liver effects.

Elevated temperature processing such as welding and plasma arc cutting may release hazardous fumes. Inhalation of beryllium dust or fume may cause chronic beryllium disease (CBD) and is a cancer hazard. Overexposure to metal fumes may cause pulmonary edema (fluid in the lungs) and methemaglobinemia. May also cause pulmonary fibrosis and lung cancer. Lead compounds may be absorbed by ingestion, by inhalation and through the skin. Lead may damage kidney function, the blood forming system and the reproductive system. Inorganic lead compounds can cause developmental damage.

#### Carcinogenicity

This product contains one or more substances which are classified by IARC as carcinogenic to humans (Group I), probably carcinogenic to humans (Group 2A) or possibly carcinogenic to humans (Group 2B).

Group 1 - Carcinogenic to Humans

Group 2A - Probably Carcinogenic to Humans Group 2B - Possibly Carcinogenic to Humans

NTP: (National Toxicity Program)

Reasonably Anticipated - Reasonably Anticipated to be a Human Carcinogen

OSHA: (Occupational Safety & Health Administration)

X - Present

**Target Organ Effects** 

Blood. Central nervous system (CNS). Eyes. Kidney. Liver. Lungs. Nasal cavities. Respiratory

system. Skin.

#### 12. ECOLOGICAL INFORMATION

#### Ecotoxicity

Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

#### 13. DISPOSAL CONSIDERATIONS

Waste Disposal Methods

Dispose of in accordance with local regulations.

**Contaminated Packaging** 

Do not re-use empty containers.

**US EPA Waste Number** 

D006 D007 D008 D011

| Chemical Name                                | RCRA   | RCRA - Basis for Listing  | RCRA - D Series Wastes      | RCRA - U Series Wastes |
|--|--|---|-----------------------------|------------------------|
| Nickel - 7440-02-0                           | (hazardous constituent - no waste number)    | Included in waste streams:<br>F006, F039  |                             |                        |

#### U.S. Federal Regulations

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product contains a chemical or chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372:

| Chemical Name                 | CAS-No    | Weight % | SARA 313 - Threshold<br>Values % |
|-------------------------------|-----------|----------|----------------------------------|
| Copper                        | 7440-50-8 | 99.99    | 1.0                              |
| Aluminum                      | 7429-90-5 | 13.5     | 1.0                              |
| Arsenic                       | 7440-38-2 | 0.5      | 0.1                              |
| Beryllium                     | 7440-41-7 | 2        | 0.1                              |
| Cadmium and compounds (as Cd) | 7440-43-9 | 1        | 0.1                              |
| Chromium                      | 7440-47-3 | 4        | 1.0                              |
| Cobalt                        | 7440-48-4 | 2.7      | 0.1                              |
| Lead                          | 7439-92-1 | 16       | 0.1                              |
| Manganese                     | 7439-96-5 | 5        | 1.0                              |
| Nickel                        | 7440-02-0 | 33       | 0.1                              |
| Thallium                      | 7440-28-0 | 3.4      | 1.0                              |
| Zinc oxide                    | 1314-13-2 | 40       | 1.0                              |

#### SARA 311/312 Hazard Categories

| Acute Health Hazard               | Yes |
|-----------------------------------|-----|
| Chronic Health Hazard             | Yes |
| Fire Hazard                       | No  |
| Sudden Release of Pressure Hazard | No  |
| Reactive Hazard                   | No  |

Clean Water Act
This product contains the following substances which are regulated pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42):

| Chemical Name                 | CWA - Reportable<br>Quantities | CWA - Toxic Pollutants | CWA - Priority Pollutants | CWA - Hazardous<br>Substances |
|-------------------------------|--------------------------------|------------------------|---------------------------|-------------------------------|

- FOOTER NOTES:

  (a) Cu value includes Ag
  (b) Cu value includes P
  (c) Cu value includes Te + Sn
  (d) Cu value includes Te + P

(e) Cu value includes Ag + Sn + Te + Se (f) Cu value includes S (g) Ni + Co, 0.20% min.; Ni + Fe + Co, 0.6% max. (h) Ni includes Co

- (i) Includes Pb
  (j) Fe 0.10% max. for flat products
  (k) Sn 0.90% min for tubular products
  (k) When the product is for subsequent welding applications and is so specificed by the purchaser, Cr, Cd, Zr, and Zn shall each be 0.05%
- (m) Pb. 05% max for rod, wire and tube
  (n) Cu min., Cu may be calculated as Cu + Ni
  (o) P 1.5% max for continous castings
  (p) S. 25% max for continuous castings

#### Note:

Aluminum alloys will be comprised of various combinations of the elements shown above. In addition, other alloying elements may be present in minute quantities. No permissable exposure limits (PEL) or treshold limit values (TLV) exist for aluminum alloys. Values shown are applicable to component elements.

#### Section 3

#### Physical Data

Physical state: Solid Odour: N/a Evaporation Rate: N/a Boiling point: N/a Vapour pressure: N/a Vapour density: N/a Freezing point: N/a Coefficient wtr/oil distribution: N/a Ph: N/a

Oden the shall N/A Delling point N/A American sharp Gracify Construction 100

Odour threshold: N/a Boiling point: N/a Appearance: slvr gry Specific Gravity:H20=1(approx. 2.5-2.9)

#### Section 4

#### Fire & Explosion Data

Means of extiction: Dry Powder or Sand \*NOTE: do not use water or Halogen on molten Aluminum Flash

#### Section 5

#### **Reactivity Data**

Not applicable Chemical Stability: yes Incompatibility to other substances: yes

Reactivity & under what condition: Sodium Hydroxide& Halogen ACIDS in contact with Aluminum may generate explosive Hydrogen Mixtures. Hazardous Decomposition Products: extreme heat may produce toxic or irritating airborne particulate, including Alloy Oxide

#### Section 6

#### Toxicological Properties of Material

Route of entry: Prolonged skin contact with coated products may cause skin irritation in sensitive individuals Inhalation of alloy particulate or elemental oxide fumes generated during welding, burning, grinding or machining may pose acute or chronic effects.

<u>Acute exposure</u>: Inhalation of overexposure may cause metal fume fever characterised by fever and chills (flu like symptoms) appears to 6 hours after exposure with no know long term effects.

Chronic exposure: Chronic inhalation of alloy fume may cause a benign pneumonconconiosis (siderosis)

with few or no symptoms. Chronic inhalation of fumes may affect the digestive system, nervous system, respiratory system, muscles and joints.

Sensitisation to product: Unknown Synergistic materials: Unknown Reproductive effects: No known effect

Teratogenicity: No known effect Mutagenicity: No known effect

Carcinogenicity of material: IARC lists Hexavalent Chromium compounds under its group 1 category.

Confirmed Human Carcinogen

Note: welding fume may also contain
contaminants from fluxes or welding consumables.

#### Section 7

#### **Preventive Measures**

Personal Protective Equipment: Dependent upon process being performed on material.

Each operation must be addressed for suitable equipment and or engineering controls.

Gloves: Leather faced/ cut protection Eyes: Safety glasses or face shield as appropriate

Footwear: Safety shoes/ boots where required Other: Barrier cream may be used when handling

Respiratory: Approved respiratory protection where applicable.

Engineering Controls (eg. Ventilation, enclosures):General or local exhaust ventilation during welding.

Leak and spill procedures: N/a

Water disposal: N/a

Storage Requirements: Keep stored material dry to prevent corrosion.

Special Shipping Information: N/a

#### Section 8

#### First-Aid Measures

Skin: Wash affected area with soap and water. Seek medical attention if irritation persists.

Eye: For irritation from any coating material flush eyes with plenty of water.

Seek medical attention if irritation persists.

Inhalation: For overexposure to alloy fumes remove to fresh air.

Seek medical attention for adverse symtons

Ingestion: N/a

#### Section 9

#### **Preparation Date of MSDS**

Prepared by

Samuel, Son & Co. Ltd.

Phone Number

1-800-267-2683

Date

January 2012

The information contained is based on the data considered accurate, however, no warranty is expressed or implied regarding the accuracy of these data or the results obtained from the use thereof.

#### **Section 1: IDENTIFICATION**

#### 1.1 PRODUCT IDENTIFIER

Product Name: TPO Direct Weld Product Code: Not available.

#### 1.2 RECOMMENDED USE OF CHEMICAL AND RESTRICTIONS ON USE

Use: Coating.

#### 1.3 DETAILS OF THE SUPPLIER OF THE SAFETY DATA SHEET

Name/Address: Menzies Enterprises Ltd.

19370 60th Avenue Surrey, BC V3S 3M2

**Telephone Number:** 604-530-0712

Toll free: 1-800-665-8840

#### 1.4 EMERGENCY TELEPHONE NUMBER

**Emergency Telephone** 1-800-665-8840 (Monday to Friday, 7:00 a.m. - 4:00 p.m. PST,

**Number:** excluding Federal and Provincial holidays.)

Date of Preparation: October 17, 2012

#### Section 2: HAZARD(S) IDENTIFICATION

#### 2.1 CLASSIFICATION OF THE CHEMICAL

#### **Hazard class**

This preparation is classified as not hazardous according to OSHA HazCom 2012.

#### 2.2 LABEL ELEMENTS

Hazard Pictogram:

Signal Word:
Not applicable.

Hazard Statement:
Not applicable.

Prevention:
Not applicable.

Response:
Not applicable.

Storage:
Not applicable.

Not applicable.

Not applicable.

Not applicable.

Not applicable.

#### 2.3 ADDITIONAL INFORMATION

Hazards not otherwise classified: Not applicable.

100 % of the mixture consists of ingredient(s) of unknown acute toxicity.

#### **Section 3: COMPOSITION/INFORMATION ON INGREDIENTS**

#### 3.1 MIXTURES

| Ingredient                   | CAS No | Wt. % |
|------------------------------|--------|-------|
|                              |        |       |
| None by WHMIS/OSHA criteria. |        |       |

#### **Section 4: FIRST- AID MEASURES**

#### 4.1 DESCRIPTION OF THE FIRST AID MEASURE

Eye:None required.Skin:None required.Inhalation:None required.Ingestion:None required.

#### 4.2 MOST IMPORTANT SYMPTOMS AND EFFECTS, BOTH ACUTE AND DELAYED

Eye:No known adverse effectsSkin:No known adverse effectsInhalation:No known adverse effectsIngestion:No known adverse effects

#### 4.3 INDICATION OF ANY IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENTS NEEDED

**Note to Physicians:** No specific treatment. Treat symptomatically.

**Specific Treatments:** In case of accident or if you feel unwell, seek medical advice.

#### **Section 5: FIRE-FIGHTING MEASURES**

#### 5.1 FLAMMABILITY

Flammability: This product is not flammable by WHMIS/OSHA criteria.

#### 5.2 EXTINGUISHING MEDIA

Suitable Extinguishing Media: Treat for surrounding material.

Unsuitable Extinguishing Media: Not applicable.

5.3 SPECIAL HAZARDS ARISING FROM THE CHEMICAL

**Products of Combustion:** May include, and are not limited to: oxides of carbon.

**Explosion Data:** 

Sensitivity to Mechanical Impact: Not available.

Sensitivity to Static Discharge: Not available.

#### 5.4 SPECIAL PROTECTIVE EQUIPMENT AND PRECAUTIONS FOR FIRE FIGHTERS

Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).

#### **Section 6: ACCIDENTAL RELEASE MEASURES**

#### 6.1 PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES

Not applicable.

#### 6.2 METHODS AND MATERIALS FOR CONTAINMENT AND CLEANING - UP

Methods for Containment: Pick up large pieces, then place in a suitable container. Use appropriate

Personal Protective Equipment (PPE).

Methods for Cleaning-Up: Place material in suitable container for disposal in accordance with

local and national regulations.

#### **Section 7: HANDLING AND STORAGE**

#### 7.1 PRECAUTIONS FOR SAFE HANDLING

**Handling:** This product is safe under normal conditions of use. There are no

specific handling precautions.

General Hygiene Advice: Handle according to established industrial hygiene and safety

practices. Wash exposed skin prior to eating, drinking or smoking

and at the end of each shift.

#### 7.2 CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES

Storage: This product is safe under normal conditions of use. There are no

specific storage conditions. (See section 10)

#### Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### **8.1 CONTROL PARAMETERS**

#### **Exposure Guidelines**

| Occupational Exposure Limits  |  |  |
|-------------------------------|--|--|
| Ingredient OSHA-PEL ACGIH-TLV |  |  |
|                               |  |  |
| Not applicable.               |  |  |

#### **8.2 EXPOSURE CONTROLS**

**Engineering Controls:** Ventilation is not normally required.

#### 8.3 INDIVIDUAL PROTECTIVE MEASSURES

**Personal Protective Equipment:** 

Eye/Face Protection: None necessary under normal conditions of use.

**Skin Protection:** 

Hand Protection: None necessary under normal conditions of use.Body Protection: Use personal protective equipment as required.

Respiratory Protection: Not normally required.

**General Health AND Safety** 

**Measures:** This product is safe under normal conditions of use.

#### Section 9: PHYSICAL AND CHEMICAL PROPERTIES

#### 9.1 INFORMATION ON BASIC PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Not available.

Color: Various.

Odour: Not available.
Odour Threshold: Not available.

Physical State: Solid.

pH: Not available.

Page 3 of 8

**Melting Point:** Not available. **Boiling Point:** Not available. Flash Point: Not available. **Evaporation Rate:** Not available. Flammability: Not Flammable. **Lower Flammability/Explosive Limit:** Not available. **Upper Flammability/Explosive Limit:** Not available. Vapor Pressure: Not available. Vapor Density: Not available. **Relative Density/Specific Gravity:** Not available. Solubility: Not available. Partition coefficient: n-octanol/water: Not available. **Auto-ignition Temperature:** Not available. **Decomposition Temperature:** Not available. Viscosity: Not available. **Explosive Properties:** Not available. **Oxidizing Properties:** Not available.

#### Section 10: STABILITY AND REACTIVITY

#### **10.1 REACTIVITY**

No dangerous reaction known under conditions of normal use.

#### **10.2 CHEMICAL STABILITY**

Stable under normal storage conditions.

#### **10.3 POSSIBILITY OF HAZARDOUS REACTIONS**

No dangerous reaction known under conditions of normal use.

#### **10.4 CONDITIONS TO AVOID**

Incompatible materials.

#### 10.5 INCOMPATIBLE MATERIALS

None known.

#### 10.6 HAZARDOUS DECOMPOSITION PRODUCTS

May include, and are not limited to: oxides of carbon.

#### **Section 11: TOXICOLOGICAL INFORMATION**

#### 11.1 INFORMATION ON TOXICOLOGICAL EFFECTS

Likely Routes of Exposure: Skin Contact.

#### Symptoms related to physical/chemical/toxicological characteristics:

Eye: None under normal conditions of use.Skin: None under normal conditions of use.

**Ingestion:** None under normal conditions of use.

**Inhalation:** None under normal conditions of use.

#### **Acute Toxicity:**

| Ingredient      | IDLH | LC50 | LD50 |

| mgrouion.       |   |
| Not applicable. |   |

#### 11.2 DELAYED, IMMEDIATE, AND CHRONIC EFFECTS OF SHORT- AND LONG-TERM EXPOSURE

Skin Corrosion/Irritation:Based on available data, the classification criteria are not met.Serious Eye Damage/Irritation:Based on available data, the classification criteria are not met.Respiratory Sensitization:Based on available data, the classification criteria are not met.Skin Sensitization:Based on available data, the classification criteria are not met.STOT-Single Exposure:Based on available data, the classification criteria are not met.

**Chronic Health Effects:** 

**Carcinogenicity:** This product is not classified as a carcinogen. **Germ Cell Mutagenicity:** This product is not classified as a mutagen.

Reproductive Toxicity:

**Developmental:** This product does not contain known reproductive or

developmental toxins.

Teratogenicity: Not hazardous by WHMIS/OSHA criteria.Embryotoxicity: Not hazardous by WHMIS/OSHA criteria.Fertility: No known significant effects or critical hazards.

STOT-Repeated Exposure: Based on available data, the classification criteria are not met.

Aspiration Hazard: Based on available data, the classification criteria are not met.

**Toxicologically Synergistic** 

Materials: Not available.

Other Information: Not available.

#### **Section 12: ECOLOGICAL INFORMATION**

#### **12.1 ECOTOXICITY**

Acute/Chronic Toxicity: Not available.

12.2 PERSISTENCE AND DEGRADABILITY

Not available.

#### 12.3 BIOACCUMULATIVE POTENTIAL

Bioaccumulation: Not available.

**12.4 MOBILITY IN SOIL** 

Not available.

12.5 OTHER ADVERSE EFFECTS

Not available.

Section 13: DISPOSAL CONSIDERATIONS

13.1 WASTE TREATMENT METHODS

Disposal Method: This material must be disposed of in accordance with all

local, state, provincial, and federal regulations.

Other disposal recommendations: Not available.

Section 14: TRANSPORT INFORMATION

**14.1 UN NUMBER** 

DOT TDG

Not regulated. Not regulated.

14.2 UN PROPER SHIPPING NAME

DOT TDG

Not applicable. Not applicable.

14.3 TRANSPORT HAZARD CLASS (ES)

DOT TDG

Not applicable. Not applicable.

**14.4 PACKING GROUP** 

DOT TDG

Not applicable. Not applicable.

14.5 ENVIRONMENTAL HAZARDS

Not applicable.

14.6 TRANSPORT IN BULK ACCORDING TO ANNEX II OF MARPOL 73/78 AND THE IBC CODE

Not applicable.

14.7 SPECIAL PRECAUTIONS FOR USER

Not applicable.

#### **Section 15: REGULATORY INFORMATION**

# 15.1 SAFETY, HEALTH AND ENVIRONMENTAL REGULATIONS/ LEGISLATIONS SPECIFIC FOR THE CHEMICLA

**Canadian:** This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

**US:** MSDS prepared pursuant to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012

#### WHMIS Classification(s):

Not controlled.

#### SOURCE AGENCY CARCINOGEN CLASSIFICATIONS:

CP65 California Proposition 65

OSHA (O) Occupational Safety and Health Administration.

ACGIH (G) American Conference of Governmental Industrial Hygienists.

A1 - Confirmed human carcinogen.

A2 - Suspected human carcinogen.

A3 - Animal carcinogen.

A4 - Not classifiable as a human carcinogen.

A5 - Not suspected as a human carcinogen.

#### IARC (I) International Agency for Research on Cancer.

1 - The agent (mixture) is carcinogenic to humans.

2A - The agent (mixture) is probably carcinogenic to humans; there is limited evidence of carcinogenicity in humans and sufficient evidence of carcinogenicity in experimental animals.

2B - The agent (mixture) is possibly carcinogenic to humans; there is limited evidence of carcinogenicity in humans in the absence of sufficient evidence of carcinogenicity in experimental animals.

3 - The agent (mixture, exposure circumstance) is not classifiable as to its carcinogenicity to humans.

4 - The agent (mixture, exposure circumstance) is probably not carcinogenic to humans.

#### NTP (N) National Toxicology Program.

1 - Known to be carcinogens.

2 - Reasonably anticipated to be carcinogens.

#### **Section 16: OTHER INFORMATION**
